

SONOZAIRE[®] Odor Neutralizer

**Restoration Contractors, Dry Cleaners, Carpet Cleaners,
Cleaning Management Professionals.**

Sonozaire is used to remove the odors from smoke, mold, mildew, chemicals, pets, water damage, and many other causes. Ozone can be used to treat odors in clothing, carpet and throughout the damaged area, including air conditioning ducts. Users can select from five models based upon the room volume of the area to be treated.

Treat:

The newly released model 5G is designed with a double-insulator, corona discharge ozone cell. With no exposed metal parts, it requires minimal maintenance. The 5G is a perfect model for restoration companies, hotel/motel owners, and auto detailers because of its high ozone output and compact size. This lightweight model has a high cfm fan and is designed to destroy and quickly eradicate on-site odor problems.

Model 5G

Sonozaire units can be used in a Restoration Room where smoke or disaster damaged items are treated. Sonozaire models can also be placed directly in the damaged area, home, office, etc. They can be operated overnight, or longer, to remove the odors. Ozone will remove odors from clothing, furniture, carpet, air ducts, walls, ceilings, drapes, etc. The Sonozaire units are designed to be used in unoccupied areas.

- **Fire damage**
- **Water damage**
- **Mold Remediation**
- **Tobacco Odors**
- **Pet Odors**
- **Hotel/Motel Rooms**
- **Vehicles of All Sizes**
- **Plus many more**

Sonozaire Odor Neutralizer

Restoration Contractors commonly "soak" treat an area with ozone to remove odors. This is done by placing the discharge from the Sonozaire near the return air grill of a central unit. Using the HVAC air duct system rapidly circulates the ozone throughout the treatment area, while also removing odors and reducing bacterial growth in the duct work.

Dry Cleaners and Restoration contractors use Restoration Rooms to restore the clean, odor-free smell to clothing, furniture, rugs, furs, drapes, bedding, etc. Sonozaire's ozone destroys odors, and they don't return! The Sonozaire is a must for use with fire and water damaged items. Treatments can be made at night, allowing you to make money while you sleep.
