

**AS170**  
BRICK MORTAR SAW

# Allsaw Technology

Arbortech's successful **Allsaw technology** just keeps getting better! Now with a completely new motor, the AS170 offers over **70% more power**, improved reliability, faster cutting speed, and durability in the toughest work environments.

### Cut Square:

The AS170 cuts square openings with no over cutting. Surrounding brickwork can remain untouched, no bolting or stitch drilling is required and job completion times can be reduced.

### Cuts Deep:

The AS170 is the only small handheld saw able to cut to a depth of 4 3/4".

### Cuts Safe:

The AS170 provides superior operator safety. The inherently safe cutting action prevents kickback and is easy to control.

### Plunge Cuts:

Use the AS170 to cut directly into flush walls without stitch drilling.

### Cuts Dry / Low Dust:

This unique cutting technology creates very little flydust protecting the operator and creating a cleaner work environment.

### High Visibility and Precision Cutting:

The forward facing blades allow clear visibility when cutting making the AS170 the ideal tool whenever accuracy and precision is required.

**VIBRATION REDUCING HANDLE**  
Significant vibration reduction to increase user comfort.

**DUST BOOT WITH VACUUM ATTACHMENT**  
Efficient dust control for jobs in sensitive environments.

**NEW POWERFUL HEAVY DUTY MOTOR**  
13 Amps with over 70% more power for improved cutting performance. Dust resistant heavy duty design ensures long motor life even in the toughest working environments.

**AUTO CUT OFF BRUSHES**  
Prevents motor damage.

**RESHARPENABLE TUNGSTEN CARBIDE TEETH**  
Long lasting, designed specifically for cutting bricks and mortar.

**AS170**  
BRICK + MORTAR SAW

THINK OUTSIDE THE CIRCLE.

**NEW HIGH PERFORMANCE  
BLADES**

**CUTS 50%  
FASTER\***

• Improved carbide  
formula & tooth  
design

• High temperature  
brazing

• Increased cutting  
speed

• Cuts hard mortar

• Stays sharp  
longer

**Cuts Harder. Faster. Longer.**

Arbortech's new High Performance blades are available as after market accessories in both the General Purpose and Plunge Blades.

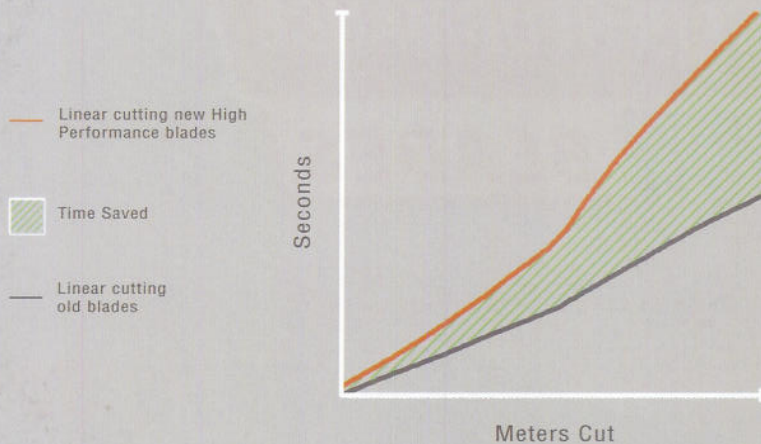

The new formula carbide teeth and higher temperature solder aggressively cuts hard mortar, staying sharper, longer.

# NEW HIGH PERFORMANCE BLADES

**CUTS  
50%  
FASTER**

\*Based on a 5 meter full depth cut in brick pavers

“The new high performance blades work twice as fast as the standard General Purpose blades. Our guys find them 2 to 3 times faster than using a regular 4 or 6” grinder, with less dust factor”.  
**Gariup Construction Co., Inc, IN**

“The AS170 is a wonderful piece of equipment for restoration jobs, caulking, and practically anything. Saves a lot of time, a lot of money, and a lot of effort. It’s a good tool”.  
**Costa Brothers Masonry, MA**

BLADE TYPES	DESCRIPTION	CUTTING SPECS	APPLICATION
High Performance General Purpose Blades		Depth: 4 1/2" (115mm) Width: 1/4" (7.2mm)	Used for general cutting of bricks, and mortar or general masonry cutting. Also used for cutting tree roots or wood through dirt and sand.
High Performance Plunge Blades		Depth: 4 3/4" (120mm) Width: 1/4" (7.2mm)	Used for general cutting of bricks and mortar. Ideal for single brick removal and tothing of brickwork.
Tuckpointing Blades**		Depth: 1 3/8" (35mm) Width: 1/4" (7.2mm)	Used for removing the mortar between the bricks in restoration work (known as tuckpointing).
Switchbox Blades**		Depth: 4 1/2" (120mm) Width: 1/4" (7.2mm)	Used to cut small holes for electrical switches. Ideally suited to cut small square holes.

\*\*High performance blades coming soon.
