VIVID DYE brings the beauty of color to your polished concrete floor.

Your polished concrete floor carries its own signature. No two concrete slabs are exactly alike. Vivid Dyes bring you color options that accentuate the beauty of your FGS/PermaShine polished concrete floor.

Discover how the translucent color of Vivid Dyes can revitalize the beauty inherent in new or existing concrete floors. When highlighted with FGS Hardener Plus, your FGS/PermaShine floor will add a nearly luminous effect to the natural finish of your concrete for a dramatic, satisfying appearance.

Vivid Dye offers you a diverse and rich color palette of

premium, micronized pigments. L&M Vivid Dye colors can be combined to create an unlimited number of color variations and intensities. Vivid Dye allows for great flexibility in visual appearance while it offers an attractive color treatment.

In any concrete floor, natural ingredients and finishes can and will affect the final color appearance. That's why your certified FGS/PermaShine professional will work with you to explore the unique properties of your polished concrete floor-and to discover the many possibilities of color with Vivid Concrete Dye.

VIVID CONCRETE DYE™

Translucent Decorative Concrete Dye for Polished Concrete

Product Description:

L&M Vivid Concrete Dye is formulated using extremely fine molecules of color designed to penetrate and color interior concrete surfaces. Vivid Concrete Dye is ideal for use with the FGS PermaShine polished concrete floor system, but can also be used as a base color or touch up for colored concrete.

Features & Benefits:

- Extensive selection of vibrant colors
- Extremely easy to apply, Fast drying.
- Perfect for FGS PermaShine Polished Concrete Floors.
- Can be used in conjunction with acid stained floors as a base color or as touch up color.

- Formulated to be applied to any cementitious surface.
- Packaged in dry form for easy and safe shipping and storage.
- Unlimited shelf life in powder form.

For Best Results:

- Recommended for use in interior concrete applications only.
- Not recommended for porous surfaces.
- Not a final coating. Must be sealed with FGS Hardener Plus or equivalent sealer for long term performance.
- **Always apply on non-conspicuous test area to confirm actual color.**

For Professional Use Only. Refer to technical data sheets and MSDS for proper installation instructions and safe handling instructions.
