

BREAKER

HEAVY DUTY LONG REACH

The 'BREAKER' is a heavy duty long reach with a vibration isolated handle for operator comfort.

Applications include concrete reduction, removal of tough ceramic tiles, removal of thin set mortars and crack chasing. The 'BREAKER' can be fitted with rugged 1", 2", 3", or 4" wide hexagon shank chisels.

FEATURES AND BENEFITS:

- Modern single ball retainer for safe chisel locking and quick change
- Choice of rugged 1", 2", 3" or 4" wide chisels with industry standard 7/8" hexagon shank (see page 9 for chisel details)
- Vibration isolated handle for operator comfort
- Reduces damage to concrete substrates

Model	Part No.	Weight	Length	B.P.M.	Air Consumption
BREAKER	157.5599	27lbs(12.3kg)	58.3"(1480mm)	2000	20cfm(564 lpm)

LRS55

POLE SCABBLER & COMPACTOR

Ahead in their class, Long Reach Scabblers and Compactors can be supplied with interchangeable scabbling heads and tamper feet to suit most applications.

They are the most powerful tools for deep concrete dressing and for filler tamping especially in and around deep foundations and utility poles (when fitted with 4" or 6" tamper foot)

Model	Part No.	B.P.M.	Air Consumption	Weight
LRS55 c/w 5 point scabbler head	150.5099	1100	25cfm	30lbs(13.4kg)
LRS55 c/w 4"x4" compactor foot	150.5091	1100	25cfm	29lbs(13kg)
LRS55 c/w 6"x5" compactor foot	150.5092	1100	25cfm	30lbs(13.4kg)

FEATURES AND BENEFITS:

9" Throttle Handle

- Greater control & reduces fatigue

Angled Air Inlet

- For operator safety
- Situated below the throttle for better maneuverability

Large Piston Diameter

- Greater productivity

Selection of Heads Available

- Interchangeable scabbler and tamper heads for greater versatility
