

THE RED LINE

WS2320 HEAVY DUTY VACUUM

**THE MOST POWERFUL AND ECONOMICAL
INTERMITTENT DUTY VACUUM IN ITS CLASS!**

Ideal for

HEAVIER FINE MATERIALS SUCH AS:

- Crushed plastic and PVC
- Blown-In Insulation
- Vermiculite
- Fibrous materials
- Wood debris and wood pellets
- Glass bead
- Steel shot
- Metal scraps

**Intermittent
Duty**

- Features 11 Hg" of negative pressure
- Easily handles large piles, particles and heavier materials
- MicroClean filtration prevents filter clogs and costly replacements
- Fully grounded to prevent static build-up

THE RED LINE

WS2320 HEAVY DUTY VACUUM

The WS2320 Heavy Duty vacuum by Ruwac is unlike any other portable intermittent duty vacuum in its class: It boasts more power, pressure and filtration in comparison to any other vacuums of its size! At 11 Hg", 300 CFM and 240 Volts, this makes the WS2320-HD capable of picking up tough materials such as blown-in insulation, vermiculite, metal and plastic scraps, fibrous material, wood debris, pellets and glass bead easier than ever while maximizing the power behind hose lengths and multiple operators!

Features & Benefits

- Intermittent duty single phase vacuum
- Compact design with 11 Hg" negative pressure makes it one of the most powerful and economical portable vacuum on the market!
- Easily handles larger piles, particles and heavier materials
- Supports longer hose lengths and multiple operators
- Fully grounded to protect against static build-up
- Inclusive sound suppression for quiet operation
- Durable compression cast composite housing will never dent, break or rust, and is backed by Ruwac's lifetime warranty
- Unique ovular design offers the best cyclonics
- Fully modular housing design accommodates filter upgrades to HEPA and ULPA
- Heavy duty 3" double casters, a counterbalanced base

Model	HP	CFM	Hg"	Voltage
WS2320-HD	3.2	300	11	240

EASY-TO-EMPTY DUSTPAN

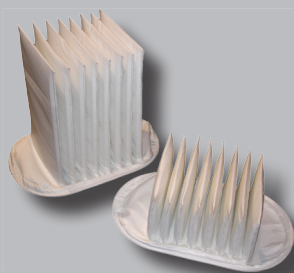

Drop down dustpan has a foot-actuated lever so you never need to remove the motor deck, resulting in a clean, dust-free emptying

HEPA - ABSOLUTE FILTRATION

Upgrades to HEPA filtration at any time to collect and contain debris down to and including 0.3 Microns.

About Our MicroClean Filtration

Ruwac's low-loading MicroClean filters are specifically designed to collect and contain fine powders and dusts. The innovative pleated design allows filter area to be maximized within a confined space. There are no paper or cartridge filters here. Our filters are made out of only the best quality materials to ensure longevity and performance. Ruwac filters are 99.9% efficient at removing particles down to and including .5 micron. Unlike cartridge or paper filters which need to be replaced, our filters are permanently installed and can be cleaned without disassembling the vacuums.

Pleated paper and cartridge filters can become distorted with too much filter cake, rendering a vacuum useless. With a Ruwac vacuum, you never have to worry about collapsing filters. Our MicroClean filters are protected with a steel frame and wire mesh inserts to preserve shape and integrity while vacuuming and cleaning. Furthermore, an external manual cleaning assembly allows users to rid the filter of dust accumulation, extending filter life and renewing air flow. So stop messing with the rest -- Put a Ruwac filter to the test!

All Ruwac Vacuums Include A 3-Year Filter Guarantee!

ACCESSORIES & TOOLS

A variety of hoses, wands, floor tools and utilities are available to fully accommodate your application requirements. Call us today for more info!
