

Ruwac USA **UPGRADE OPTIONS**

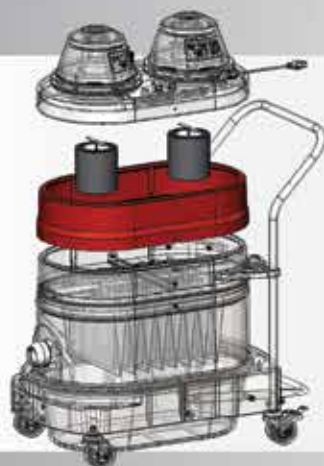

TAKE FILTRATION AND COLLECTION TO THE NEXT LEVEL!

HEPA MAXX FILTER CONVERSION KIT

#35192

- For use with any WS2320, DS1 or Alternative Power Series vacuum
- MERV 18 at 99.997% @ 0.3 microns
- Finite filtering purifies air
- Individually DOP certified
- Minihelic filter monitoring
- Oversized filter and housing with velocity reduction chamber
- Bottom seal positive gasket
- Compliant to OSHA's silica dust collection standards

HEPA 2.0 FILTER CONVERSION KIT

#35192CON

- For use with WNS2220 and WS2220 vacuums
- MERV 17 at 99.97% @ 0.3 microns
- Modular construction makes them easy to install and upgrade
- Finite filtering purifies air
- Compliant to OSHA's silica dust collection standards

SINGLE AND DOUBLE STACK DIRECT BAGGER VACUUM CONVERSION KIT

#565301KIT - Single Stack
#565302KIT - Double Stack

- Turns your Ruwac portable WNS2220, WS2220 or WS2320 vacuum into a direct bagging system without the expense of buying an entirely new machine
- Easy to install -- Simply requires the removal of the motor deck, filter and shaker systems from your portable vacuum, and installing it onto the Direct Bagger vacuum conversion frame
- Option to convert vacuum back to portable for various other vacuuming applications

Ruwac USA **INDUSTRIAL VACUUMS FOR CONCRETE DUST**

COMPLIANT TO OSHA SILICA DUST STANDARDS

OSHA requires the use of an industrial vacuum system with compliant filtering for workers using stationary and hand-held masonry saws, grinders, tuck-pointing, and other tools that create silica dust. Due to their superb features, Ruwac's vacuum systems are your best solution in reducing silica dust levels and containing silica dust efficiently, keeping workers safe from its harmful effects!

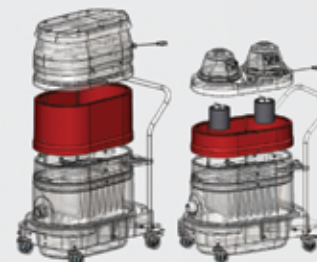

Dust Collectors Must Have a Filter with 99% or Greater Efficiency and a Filter Cleaning Mechanism

- Ruwac's industry-leading filtration is 99.9% efficient at 0.5 microns
- MicroClean filters outperform expensive cartridges, reduce maintenance, and cut down on costly filter replacements
- Certified dustless -- 3-year filter life guarantee
- Ruwac vacuums are equipped with an external filter shaker that allows you to clean the dust cake off the filter from the outside of the machine, thus preventing worker exposure to the filter and materials

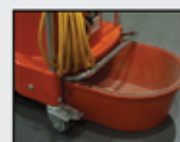

Vacuums for Indoor Use or Enclosed Areas Must Be HEPA-equipped

- HEPA Maxx is 99.997% efficient @ 0.3 microns; Merv 18 Rating
- HEPA 2.0 is 99.97% efficient @ 0.3 microns; Merv 17 Rating
- For an additional layer of filtration that purifies air and increases safety by preventing the escape of respirable silica dust from the vacuum exhaust

Dust-free Emptying Systems to Prevent Airborne Dust from Escaping

- Ruwac's specialized collection bin disassembles without the use of tools, reducing operator exposure with its contents. Simply lift up the easy foot-actuated lever to release the bin and turn the vacuum back on to avoid any airborne dust from escaping while emptying!
- Direct bagging system safely collects materials into any standard bag, reducing the risk of exposure between operators and the vacuum's contents

OSHA Recommends Optional Cyclonic Pre-Separator for Certain Applications

- Ruwac's exclusively designed cyclonic separators improves vacuum efficiency -- 95(+)% efficient with submicron particles before reaching the filter -- preventing clogs and extending the life of both the primary and HEPA filters

RED LINE SERIES PORTABLE AND DIRECT BAGGING VACUUMS

WNS2220 LITTLE RED

#33129 - WNS2220 HEPA 2.0
#33129DB - WNS2220-DB HEPA 2.0

- 200 CFM / 110 Volts / 3.2 HP
- Indestructible compression cast composite housing -- Guaranteed for life!
- Industry-leading MicroClean filtration is 99.9% efficient @ 0.5 microns -- 3-year filter life guarantee!
- 9 gallon foot-actuated dustpan collection or direct bagging (DB) system
- HEPA 2.0 for air purification -- 99.97% efficient @ 0.3 microns

WS2220 QUIET RED

#33137 - WS2220 HEPA 2.0
#33137DB - WS2220-DB HEPA 2.0

- 200 CFM / 110 Volts / 3.2 HP
- Indestructible compression cast composite housing -- Guaranteed for life!
- Industry-leading MicroClean filtration is 99.9% efficient @ 0.5 microns -- 3-year filter life guarantee!
- 9 gallon foot-actuated dustpan collection or direct bagging (DB) system
- HEPA 2.0 for air purification -- 99.97% efficient @ 0.3 microns

WS2320 RED RAIDER

#33380 - WS2320 HEPA Maxx
#33380DB - WS2320-DB HEPA Maxx

- 288 CFM at 110 Volts or 340 CFM at 220 Volts / 4 HP
- Indestructible compression cast composite housing -- Guaranteed for life!
- Industry-leading MicroClean filtration is 99.9% efficient @ 0.5 microns -- 3-year filter life guarantee!
- 9 gallon foot-actuated dustpan collection or direct bagging (DB) system
- HEPA Maxx for air purification -- 99.97% efficient @ 0.3 microns

POWER HOUSE SERIES CONTINUOUS DUTY VACUUMS

DS2720-CON

#A55335 - DS2720-CON w/ Distribution Box

- 506 CFM / 208, 230/460 Volts / 10 HP
- Fiberglass reinforced compression cast composite housing -- Guaranteed for life!
- Industry-leading MicroClean filtration is 99.9% efficient @ 0.5 microns
- 24 gallon foot-actuated dustpan collection
- Custom steel frame and rubberized inlet for tough construction jobs
- Optional HEPA Super Maxx for air purification
- Optional distribution boxes available for max flow power to vacuum and attached equipment:
 - 230 / 3 / 60 - 90 Amps In - 40 Vac Amps - 50 Aux Amps - 50 Aux Amp Plug
 - 460 / 3 / 60 - 60 Amps In - 20 Vac Amps - 40 Aux Amps - 30 Aux Amp Plug

DS1400-XLT

#A1633-2951 - DS1400-XLT

- 300 CFM / 230 or 460 Volts / 5 HP
- Fiberglass reinforced compression cast composite housing -- Guaranteed for life!
- Industry-leading MicroClean filtration is 99.9% efficient @ 0.5 microns -- 3-year filter life guarantee!
- 30 Gallon drum with 9 gallon foot-actuated dustpan collection
- 12" HEC Pre-Separator with tipping drum and lifting mechanism for easy emptying, and equalizer kit for bagged collection
- Optional HEPA Maxx for air purification - efficiency
- Available in gas and propane powered options

CYCLONIC PRE-SEPARATORS

- 95(+) % Efficient with submicron particles
- Eliminates filter clogs, increases filter life and vacuum's collection capacity

#9955XLT - 12" HEC-XLT

- 30 Gallon drum collection
- Lifting and tipping mechanisms for easy, ergonomic disposal
- Equalizer kit for dust-free bagged collection

#996412 - 12" HEC-DB

- Direct bagging collection for dust-free collection and emptying
- For universal use with any standard bag
