

TruBrand™ | 8-54DCG1

Heavy-Duty Dust Collector

This TruBrand dust collector is designed specifically for the rigors of working with concrete, masonry, tile mortar, and asphalt materials to reduce the amount of debris and dust generated on surface preparation job sites. This reduction creates environmentally friendly work conditions, helps diminish operator fatigue, minimizes health issues and allows work on simultaneous projects.

- ▶ ***New 4-wheel design for greater stability***
- ▶ ***Eight cartridge filter system provides comfortable, dust-free working***
- ▶ ***Auto-pulse cleaning with 11-second pulses prolongs filter life***
- ▶ ***Electrical outlet on collector, keeps connection to on-site power through single cord***
- ▶ ***Cam-lock, high-capacity dust bin***
- ▶ ***Bin features large wheels and handles for ease of transport and debris disposal***
