

# CONCRETE GRINDING, CLEANING & POLISHING

## Professional Shroud Kits

- Easy way to upgrade your existing tool and control dust
- Precision fit and high quality components for superior performance
- Metal reinforcing ring imbedded in edge of shroud for more durability and stability
- Convertible shrouds offer easy access to tight areas for edge work along walls by simply flipping up the shroud
- May be connected to a variety of dust collection systems
- Kits available for adapting numerous makes/models of grinders to dust-controlled units
- Grinding and cleaning kits include dust shroud (full or convertible) with adapter ring or hub, mounting hardware, 8' hose, and adapter nuts for use with cup wheels or zec wheels. \*

\* Polishing kit includes 5" backing pad in place of adapter nuts
