HEAVY-DUTY VACUUM

BDC-3140DBP-V3-230/3/60-H BDC-3140LPP-V3-230/3/60-H

The Blastrac BDC-3140DBP/LPP-V3-230/3/60-H heavy-duty dust collection systems are remarkably quiet and designed for multipurpose use with medium to large grinding and polishing machines. Their vertical profiles are compact and offer great maneuverability with large wheels and two swiveling/locking casters. The ergonomic design also features easily accessible components for care and maintenance.

Built mainly of steel, the BDC-3140DBP/LPP-V3-230/3/60-H is tough and damage resistant, constructed for professional use. The wheeled dust-bin easily dismounts for debris disposal and with a capacity of 200 lbs. makes those efforts infrequent. The motor produces a maximum air flow of 300 cfm, with a maximum static pressure of 90. The easily replaced cartridge filters are ensured long life through the fully automatic, air-pulse cleaning system.

The BDC-3140DBP/LPP-V3-230/3/60-H is an advanced unit that helps eliminate most all of the airborne dust and particulate generated with grinding and polishing equipment. This powerful industrial vacuum is also perfect for contractors who must utilize a dust collection system to satisfy environmental concerns. The BDC-3140DBP/LPP-V3-230/3/60-H offers high performance with relatively low energy consumption.
